Dear Mr Barry :

As discussed over the phone this morning, we are pleased to accept a donation of four (4) metric tons of Vitapro dehydrated soy food.

Arrangements are being made by our programming staff to pick up the product this weekend. It will be shipped to South Sudan and used in CARE wet feeding programmes there. These programmes are currently benefitting tens of thousands of people who are severely malnourished and whose lives are at risk because of war and drought. Our programme staff will provide you with a report on the use of the donation once it has been received and distributed.

The Vitapro product has been used by CARE in Liberia and former Zaïre to great success and we are grateful for your continued and generous support.

Yours sincerely,

Gilles Latour
