Dear friends:

Thru these lines please receive a warm greeting. We are very grateful for the help you have brought to us. For our children and for Casa de La Sal any kind of help is more than welcome, even a small grain of salt. The help you brought, the time shared with the kids are so valuable for us so we can continue to provide a better life for each kid who lives with VIH in Mexico.

It is for a sum of volunteers and a lot of efforts by different persons who are truly engaged to a cause that projects like our institution can continue the daily work.

Thank you vary much for you generous donation and help, we still are counting on you supporting with all your resources to help childs and adults who have very low resources can have a better quality of life.

Thank you again for being part of LIFE.

Sincerely,

Silvia de los Ángeles Cortés
