

Thank you for supporting International Medical Corps

Thursday, January 26, 2012

Dear Yank,

Thank you for your very generous donation. Through your support, you become an essential partner in International Medical Corps' efforts to save lives and build healthy futures for people in Libya and around the globe.

Every year, 250 million people are devastated by armed conflict and natural disaster. Your donation enables International Medical Corps to respond to these emergencies, while laying the foundation for long-term recovery and development. Your generosity and commitment are restoring hope and delivering health care, food, clean water, sanitation, and mental health support to those most in need.

Every dollar in private contributions generates on average more than \$30 in additional grants from institutional donors, and donated medicines and supplies – multiplying the impact of your dollar.

We appreciate the confidence you have placed in us, and look forward to your continued support

All the best,

A handwritten signature in cursive script that reads 'Nancy'.
