

OUR LADY OF FATIMA
REHAB CENTER
of Liberia
now resident in San Pedro
Cote d'Ivoire

Sept. 9, 1997

Dearly Beloved and Wonderful Mr. and Mrs. Yank Barry,

Most blessed greetings in the Lord. The children are still in a state of wonderment and excitement about your visit and all the good you did for them. It is surprising that they were able to concentrate on their mid term exams through all this.

We want to thank you too about the rice. Mrs. Scott wrote on Saturday sort of clarified our position about the rice. We now anxiously await word from Mr. Ahombo who apparently is to get the rice.

God reward you a thousandfold your concern and assistance Mr. Barry. We are truly indebted to you and your entire staff.

The food is great and is being spread near and wide. In fact, we fear that it will run out before time the way people clamor for it. Again God bless your gift of making this all possible just because you dared to care and share.

Now we are in the process of wondering where to get settled... Liberia or the Ivory Coast. It is a delicate situation. It would be disastrous if I got assistance and build the children a great Rehab in Liberia and in a year or two the same sad story would strike again..it did in Sierra Leone and Liberia is no exception especially with all the warring factions still alive.

Please help us pray..that we make the right decision..it would even be better to get established here and stay here several more years but give the handicapped something real and tangible where they can prove their worth to the land from which they came and to the world in general.

Once again a zillion thanks and God reward you super splendidly for being so thoroughly wonderful...

Sister M. Eposa Beltran
